Briefly summarize the service that this Action Team will accomplish:

Please check which of the St. John annual mission goals this Action Team would help accomplish:

_____ Congregational Goal: To develop and encourage members of this body of Christ, in their mutual gifts and abilities, to live from the Gospel in their lives.
What does this look like? Through our regular activities (worship, study, visitation, fellowship) we will pair experienced people with people who are interested, but still inexperienced.

_____ Community Goal: To explore avenues to meet the needs of our community and church.
What does this look like? We will continue efforts with Family Promise and also have 3 service Sundays during this 2019-2020 campaign which we will call 13/14 Sunday (based on John 13:14) in which we will send servants from our congregation into the community to help neighbors and "wash one another's feet."

_____ Global Goal: To introduce St. John members to God's global mission by sending at least 2 groups on mission trips outside our community.
What does this look like? We will have an Action Team explore mission trip opportunities beyond (and within) our borders and we will send 2 teams on mission this year, one which is focused on youth and another that will be inter-generational.
